Assignment 1

Objective: To apply the managerial functions of Planning and Organizing to a real or hypothetical workplace scenario, demonstrating your ability to align resources, structure teams, and set actionable goals for departmental success.

Task Instructions

Assume you have been promoted to a managerial role in your current or future organization. Your task is to design a plan and organize resources for a **specific project or operational challenge** (e.g., launching a new product, improving team efficiency, managing a crisis). Follow these steps:

1. Define Your Scenario (1 Mark)

- Describe your **role in detail** (e.g., Marketing Manager, Operations Lead, HR Director) and brief about your company.
- Outline the **situation, tasks or project** you will manage (e.g., "Reducing customer complaint resolution time by 30% within 6 months").
- Explain why this project is critical to your departments or organization's success.

2. Apply the *Planning* Function (3 Marks)

- **Set Objectives:** Define 1–2 **SMART goals** (Specific, Measurable, Achievable, Relevant, Time-bound).
  Example: "Increase quarterly sales in the Asia-Pacific region by 15% within 9 months."
- **Establish Strategies:** Develop two or three strategies to achieve your goal.
- **Develop an Action Plan:** List key steps to achieve your objectives (e.g., market research, training programs, resource allocation).
- **Identify Resources:** Specify human, financial, technological, or logistical resources required.

3. Apply the *Organizing* Function (4 Marks)

- **Structure Your Team:** Define roles and responsibilities (Department or organizational chart).
- **What Needs to Be Done:** List all major tasks required to complete the project. Break large activities into smaller actionable tasks.
- **Who Will Do It:** Assign each task to a specific team or individual role. Avoid vague statements such as "the team will do it." Clearly match tasks with expertise**.**
- **How It Will Be Done:** Explain the process or tools that will be used to complete the tasks. Clarify timelines and coordination methods.
- **Deciding Who Reports to Whom:** Clarify whether team members report directly to the project manager or to team leaders.
- **Centralization vs. Decentralization of Decision-Making:**
  - **Centralization:**
    If major decisions (budget, approvals, strategy) are made by one manager, explain why this approach is suitable.
  - **Decentralization:**
    If team leaders can make operational decisions independently, explain how this improves efficiency and responsiveness.
  - You may use a hybrid structure (centralized strategic decisions, decentralized operational decisions).

4. Assignment Format (2 Marks)

Your project must follow these formatting requirements:

- Font: **Times New Roman**
- Font Size: **14**
- Line Spacing: **1.5**
- Proper headings and subheadings
- Clear structure and professional formatting
